For Michala Petri, being able to perform on her 50th birthday in Tivoli Concert Hall was very special occasion. It was in that very hall that she had her debut more than four decades earlier, as well as having performed on both her 30th and 40th birthday celebration concerts.

For this Gold Anniversary concert, Michala was joined by the wonderful Kremerata Baltica, in a jubilee commemorating the life and accomplishments of a most creative and adventurous musical life.

*The choice of repertoire was Michala's own and was made based both on what would make an attractive and varied program as well as being representative of her artistry and artistic concerns. Here, the music looks back as well as ahead, and includes the works of the Baroque masters Vivaldi and Albinoni, two exciting contemporary scores composed especially for her (Vassiliev's *Valere Iubere* and Chen Yi's *Ancient Chinese Beauty*), and at the concert's mid-point, a beautiful *Andante* by Mozart. For the remainder of the program, the ensemble of virtuosi known as the Kremerata Baltica take center stage in the performance of two works – Nino Rota's delightful Neo-Baroque *Concerto for Strings* and the enchanting *Variations on Happy Birthday* by Peter Heidrich.*

Ms. Petri wishes to express her regret that there was not enough Birthday cake left over to give a piece to everyone, but it is her sincere hope, that the tasty treats served up on that night's program will satisfy the most discriminating palate.
